THE METASINO LITEPAPER

A play-to-earn in the metaverse

Metasino is a decentralized virtual casino built on the blockchain to be played in the Metaverse using the Metasino native token - $CASINO. Participants all around the world will come to Metasino to play different casino games and win redeemable rewards.

Metasino implores creative game theory algorithms to ensure that all participants in metasino will abide by the community governance accordingly. Our unique staking and the locking mechanism will ensure all metasino player's worth are valued properly. This 'true worth' will ensure decentralization is maintained and whales do not interfere.

INCOME-GENERATING NFTS

Metasino is bringing to the metaverse, a virtual casino where you can play to earn.Imagine owning a Poker table, Slot machine in Las Vegas, Yes! That's what Metasino is building.

The opportunities and choices are vast! You can either and bet/play against other players across different types of games ranging from Blackjack, Poker, Big Six wheel, Slot machine, Craps, Roulette, Baccarat, Pool etc or own casino equipments and facilities in the form of an NFT.

These NFTs must be staked and they representing items you own on Metasino. Also, they're yield-bearing assets enabling you to earn revenue through fees collected from players.

So therefore, Metasino is a platform that allows you to either be a player or an owner.This NFT is easily transferable, say in the event where you want to sell your slot machine on Metasino.

STAKING

Metasino will have a single-asset staking for passive income generation. Yield farming will come later on as Metasino development progresses

METASINO PROPERTIES

As part of the team's effort to bring this to reality,Metasino has acquired land plot on Sandbox metaverse. With this plot of land our dev team will develop an interactive VR casino with fully functional arcade of P2E MMO suit of casino games.
Metasino's Sandbox land coordinates are LAND (-41, -132). Plot URL:

Metasino will be available on other metaverses such as Decentraland etc.

SOCIAL LIFE & GAMBLING

Metasino will have a virtual nightclub packed with club,stri club VIP lounge and a cocktail bar.There will also be a virtual social park where individuals can meet, interact and catch fun using a Virtual Reality (VR) headset

Purpose

This is a detailed summary of Metasino and how to participate, stake, engage with other participants and to embrace the world of decentralization.

Blockchain and web3.0 is leading a massive disruption in the techsphere, but Casinos are not being carried along - Sure there are online Casinos but they are yet to embrace the world of decentralized, DeFI/Dexes have recently created.

This paper is not highly technical as we have tried to lay bare intricate terms to simplified English words that can be well understood.
